

More warmth for your home

You could claim a Warm Front Grant of up to £3,500 from the Government to make your home warmer and healthier.

Some homes that need oil central heating may receive a grant of up to £6,000.

If you have received a grant before, you may qualify for extra insulation and heating work, depending on the improvements you originally received.

The Scheme targets those on certain benefits and living in properties that are poorly insulated and/or do not have a working central heating system. You must own your home or rent it from a private landlord.

The Warm Front Scheme is only available in England.

Housing association or local authority tenants do not qualify.

Application form

Please tick all boxes that apply.

I own my home. I rent my home from a private landlord
(If you rent please give contact details in the other contact details below).
